

Affinis Fracture 2 Generation: Publications

| Year | Title | Publication type | Medium | Authors | Link |
|------|--|------------------|---|--|----------------------|
| 2014 | Modulare inverse Frakturoprothese bei nichtrekonstruierbarer Humeruskopffraktur des alten Menschen | Publication | Operative Orthopädie und Traumatologie, Elektronischer Sonderdruck für F. Reuther | Reuther F, Kohut G, Nijs S | Link |
| 2012 | Suture fixation versus cable cerclage of the tuberosities in shoulder arthroplasty - clinical and radiologic results | Publication | Arch Orthop Trauma Surg. 2012; 132(6): 793-800 | Dietz S, Broos P, Nijs S | Link |
| 2012 | Primäre Endoprothetik. Wann anatomisch, wann invers? | Publication | Obere Extremität. 2012; 7:117-121 | Reuther F | Link |
| 2011 | Primary fracture arthroplasty of the proximal humerus using a new and freely adjustable modular prosthesis combined with compression osteosynthesis of the tuberosities | Publication | Orthop Traumatol. 2011; 23: 21-28. | Nijs S, Reuther F, Broos P | Link |
| 2011 | Review of fixation techniques for the four-part fractured proximal humerus in hemiarthroplasty | Publication | JOSR. 2011. 6:36 | Baumgartner D, Nolan B, Mathys R, Lorenzetti S, Stüssi E | Link |
| 2010 | Primary hemiarthroplasty versus conservative treatment for comminuted fractures of the proximal humerus in the elderly (ProCon): A Multicenter Randomized Controlled trial | Publication | BMC Musculoskeletal Disorders. 2010; 11: 97. | Den Hartog D, Van Lieshout E, Tuinebreijer W, Polinder S, Van Beeck E, Breederveld R, Bronkhorst M, Eerenberg J, Rhemrev S, Roerdink W, Schraa G, Van der Vis H, Van Thiel T, Patka P, Nijs S, Schep N | Link |
| 2009 | Refixation stability in shoulder hemiarthroplasty in case of four-part proximal humeral fracture | Publication | Med Biol Eng Comput. 2009; 47: 515-522. | Baumgartner D, Lorenzetti SR, Mathys R, Gasser B, Stüssi E | Link |
| 2009 | Shoulder arthroplasty in acute fractures, using a modular prosthetic design | Publication | Tech Should Surg. 2009; 10: 83-90. | Nijs S, Reuther F, Broos P | Link |
